

Petroleum Engineer at Tech27 Systems

Tech27 Systems is a leading Oil & Gas Service company with headquarters in UK.

We have offices in 5 countries and one among them is at Calicut, Kerala.

We have an urgent requirement for a Petroleum Engineering graduate to join our engineering team in Calicut.

Job Title: Petroleum Engineer

Organisation: Tech27 Systems (www.tech27.com)

Job Responsibilities:

1. To act as Petroleum Engineer and provide significant input in projects of Tech27 Systems
2. To create powerpoint presentations and tutor/train B.Tech graduates in Petroleum Engineering

Previous experience in 2-D Design, structural design or Pipeline engineering would be highly beneficial.

The Ideal candidate would be proactive, enthusiastic and be able to carry on a lot of responsibility in Engineering sector.

It would be great if you can forward the resumes or contact details of the 2013 passed out students to me, as soon as possible.

We can consider the 2012 passed out students as well.
