## **OUR VISION**

We inspire individuals and organisations to work more effectively and efficiently, and create greater choice in the domain of work, for the benefit of all concerned. As the world's leading provider of HR solutions – a business that has a positive impact on millions of people every day – we are conscious of our global role. Helping people to better work, better life is our common purpose and the way in which we contribute to society.

## **STRATEGY**

The world of work is constantly changing and Adecco is one of the leading forces shaping that change. With a growing demand for both flexible and skilled workforces we have two distinct approaches to the market.

For positions that require general skills, we offer our clients tailored solutions, focusing on industry know-how and cost leadership. This also means ensuring continuity and nurturing long-term relationships with associates.

To fill positions requiring specialised professional skills, we have experts who can find the right candidates. Our aim is to provide consecutive assignments, ensuring talent retention and skill enhancement for our associates.

In both approaches to the market, it is our goal to focus on operational excellence, specialisation and efficient delivery models.

As the global leader in HR services, we are aware that traditional patterns of employment will continue to evolve in the years to come. We therefore encourage present and future generations to see change as opportunity in its multiple forms. We invite people to accept tomorrow's challenges with confidence and to join us in shaping the future of the workplace.
