

Position 1. Trainee (M/F) - IT Infrastructure Service Consultant at Mercedes-Benz Research and Development India Private Limited

Tasks

IT is everywhere. It is the Lifeline for Daimler.

Maintaining, optimizing and expanding the IT infrastructure of a global company is more than just a job, it's a challenge. You'll help various business units leverage the IT captive center to meet their business challenges. You'll constantly be coming up with new ideas to maintain communication channels across the company and to raise the efficiency of the value chain.

Your tasks include:

- Act as a Single Point of Contact (SPOC) for existing services delivered & associated service issues (technical / billing / invoicing).
- Be responsible for demand management for new requirements (planning/forecasting).
- Represent the captive unit in various onsite leadership forums.
- Liaison with clients from HR/Compliance/Procurement/Finance teams as needed.
- Support colleagues in offshore for any support needed from customers.

Qualifications

For the international trainee program CAReer we expect:

- A solid university degree
- First professional work experience
- Excellent study results
- Several months of work experience abroad
- Excellent English language skills along with good knowledge in Japanese

Furthermore for this position you should have the following qualifications:

- You have completed or are about to complete a **Master degree in Business & Economics, International Management, Business Informatics, Information Technology, Computer Science** or similar subject.
- A major in **Sales and Marketing, Finance, Planning/Reporting** or comparable areas of emphasis are preferred.

You also need to convince us with your personality: We expect a bold and independent mindset, curiosity and a desire for change, openness and the highest possible standards of integrity. You enjoy working in an international working environment and you possess a high degree of mobility and flexibility. You show a pragmatic and organized approach to work and finally, a high level of motivation to take on and enjoy management responsibility.

Position 2.: Trainee (m/f) Sourcing & Supplier Management at Mercedes-Benz Research and Development India Private Limited

Tasks

Our department is responsible for all Governance related activities across ITM/S (SAP & Rollout Shared Service).

Sourcing and Supplier Management (SSM) is one of the pillars that take care of the Capacity needs of the SAP Delivery Center (SDC) through a clearly defined Sourcing Strategy that mandates 'buy' or 'make' decisions.

Your tasks include:

- Sourcing and Supplier Strategy
- Define the end to end Sourcing and Supplier Management process in alignment with ITM SSM process.
- Implement the process across SDCs.
- Define the end to end Capacity Management process:
- Roll out the Global tools across SDCs.
