About Barclays Investment Bank

With a distinctive business model, the Investment Bank provides large corporate, government and institutional clients with a comprehensive set of solutions to their strategic advisory, financing and risk management needs. Barclays Investment Bank has offices around the world, employs 20,000 people and has the global reach, advisory services and distribution power to meet the needs of issuers and investors worldwide.

Department Overview:

Barclays Research provides differentiated market insights and actionable ideas integrated across research disciplines and asset classes. Our Research teams are highly rated and consistently ranked amongst the top research teams in various surveys. By leveraging our industry leading global macro expertise and integrating our research across asset classes, we provide our clients with unique research and market intelligence.

Our credit strategists analyze and develop investment themes and market trends to provide an integrated offering across high yield, investment grade, leveraged loans, distressed debt, credit derivatives, and structured products combining short-term daily commentary with long-term thematic ideas.

Main Function of the Job:

The purpose of this role is to support the Structured Credit team by gathering relevant data, performing analysis in an efficient and timely manner to help come up with a differentiated viewpoint for our clients, and over time, contributing directly to Structured Credit publications.

Risk and Control Objective:

Ensure that all activities and duties are carried out in full compliance with regulatory requirements, Barclays Operational Risk Framework and internal Barclays Policies and Standards

Key Accountabilities:

Gathering and organizing data meaningfully to analyze and evaluate trends for asset backed securities (ABS), credit risk transfer (CRT), collateralized loan obligations (CLO), and commercial mortgage backed securities (CMBS)

Building or Updating various databases and models maintained by the team

Writing up ongoing updates, generating new ideas, and contributing to research publications

Keeping track of relevant news reports

Generating files/analyses for client requests

Summarizing our latest views and insights into marketing presentations for the Structured Credit team's client meetings

Personal Requirements:

Strong quantitative skills

Excellent written and verbal communication skills

Excellent command of Microsoft Office, particularly Excel

Strong analytical and problem solving skills

Strong attention to detail

Strong interest in the subject matter

Demonstrated ability to work in a time sensitive environment

Ability to work effectively in a team environment

Initiative/self motivation – act on own initiative, identify opportunities and be proactive in putting forward ideas and solutions
