STUDENTS WELLNESS CENTRE

**8000+ students have been intervened through various programs
Organized by the Wellness Community Centre from 2022-2023.**

Wellness Centre, IITM, is the body of licensed mental health professionals. Students can walk into the Wellness Centre or can schedule an appointment through email. Each session lasts between 45 minutes and one and a half hours. A minimum of 50 students visit the students wellness centre at IIT Madras every month. The Wellness Centre encourages students to come forward and experience mental wellness.

All session information is kept CONFIDENTIAL, unless it holds a threat to the student, or others, or to the society.

Services

The Wellness Centre works for nourishment of positive mental health in the campus. The team provides counseling and psychotherapy to the students. They also provide training and coordinate among different stakeholders when the situation demands.

- Student Counselling
- Coordination
- Training

VARIOUS PROGRAMS ORGANIZED BY THE WELLNESS COMMUNITY CENTRE FROM 2022-2023

OTHER ACTIVITIES

Recently Nimhans team visited our institute and gave us suggestions on how to improve students' mental health.

Inclusivity in the workplace workshop among the employees

The Student Wellness team's meeting with the students

Sarang stall, we met more than 500 people every day. We played mental health related games, launched activities, and gave them mental health related gifts.

NEW FACULTY INITIATION GRANT (NFIG)

Two newly joined Professors have received benefits through NFIG

Shotaro Tada

Dept. of Metallurgical and
Materials Engineering

As I begin this research journey, I aim to strike a balance between the originality of my research and its potential contribution to society. I am deeply passionate about developing novel-metal-free-functional ceramics that can activate and transform small molecules such as hydrogen (H₂) and carbon dioxide (CO₂) into sustainable fuel or energy for future mobility. I believe that this research has the potential to make a significant impact on society by promoting sustainable and environmentally-friendly energy solutions.

Once again, I would like to express my heartfelt appreciation to the 1993 batch for their support and encouragement. I am excited about this new chapter in my research career, and I look forward to sharing the results of our work with you all in the near future - Thank you.

Research Area: Novel heterogeneous catalyst consisting of main group elements

Project Title: Facile design of Polymer - Derived frustrated Lewis pair (FLP) catalyst toward energy related applications

Sanctioned Amount: INR 24.85 Lakhs – USD 34,041

Feedback from the Professor:

I am thrilled to express my gratitude to the 1993 batch Alumni for their tremendous contribution towards the New Faculty Initiating Grant (NFIG). I am truly grateful for this opportunity.

Aslam Kunhi Mohammed

Dept. of Civil Engineering

As a new faculty here, I certainly appreciate the NFIG grant which not only helps us to initiate setting up our lab, but also helps in making short trips to conferences or other institutes in India to initiate our collaborations.

I sincerely thank the efforts of the 1993 batch and hope you continue to be strong supporters of IITM and let us help bring IITM to the list of top 100 universities in the world.

Research Area: Molecular modelling of construction materials

Project Title: Atomic level insights into cementitious materials

Sanctioned Amount: INR 78,474 – USD 1,075

Feedback from the Professor:

I am myself an alumnus of IITM and it is a pleasure to see how active our alumni are to support the growth of the institute.
